

2019-03-07

Things we need to do.

- Define DB tables
- Finalise logger functionality (Merge to ~~next~~ development)
 - ↳ Use logger for anything that would help you debug.
- Merge DB to development

Sent

✓ Write email to Miles

- Check that UML diagram on GitLab is the most recent one
 - ↳ Stage4 version (submitted).

- Ask David

→ Should the src folder now be Source instead of Source-IDE

Job assignment

→ MD485 will add comments to all classes he's written

→ JD536 will write tables immediately necessary ^{completed (Pog)}
↳ Users, Personal Detail, Annual Review
Employee (empID, supervisor(nullable), loginInfo?)
A

→ NDS8 & JD623 to familiarise themselves with existing code (inc. Logger and Database)
↳ Deadline Monday (to understand code)

→ MD485 to ~~push~~ update docs with all files.
